

## How to Clear Cache in Chrome

### 1. Open Browser Settings

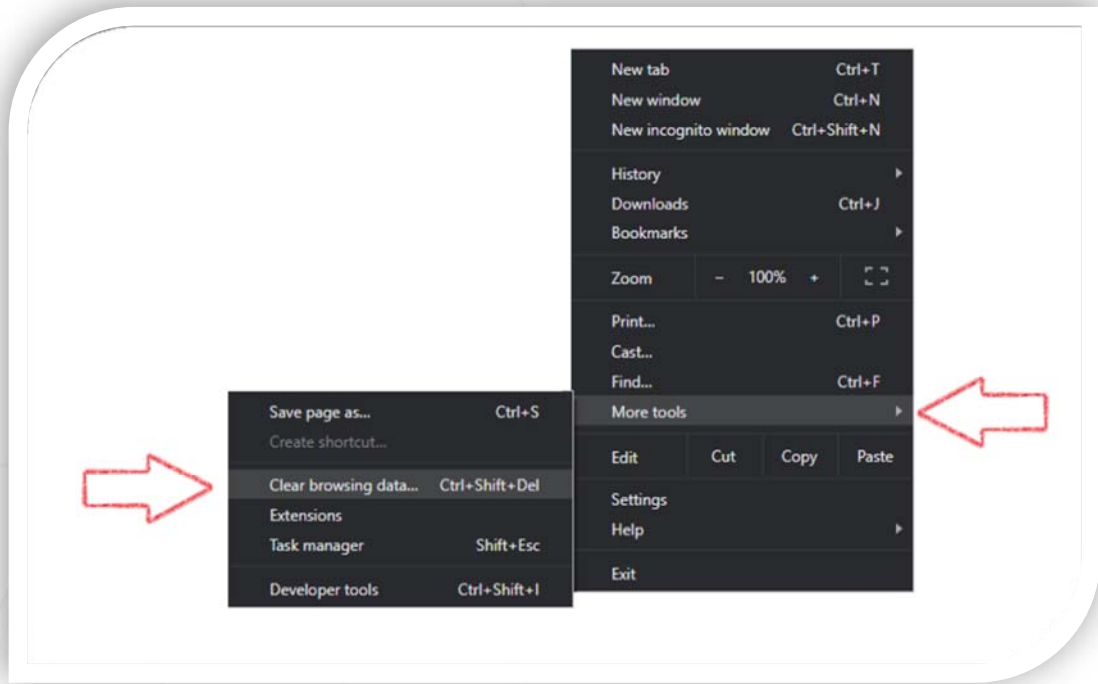

- Double Click-> Your Chrome internet browser icon

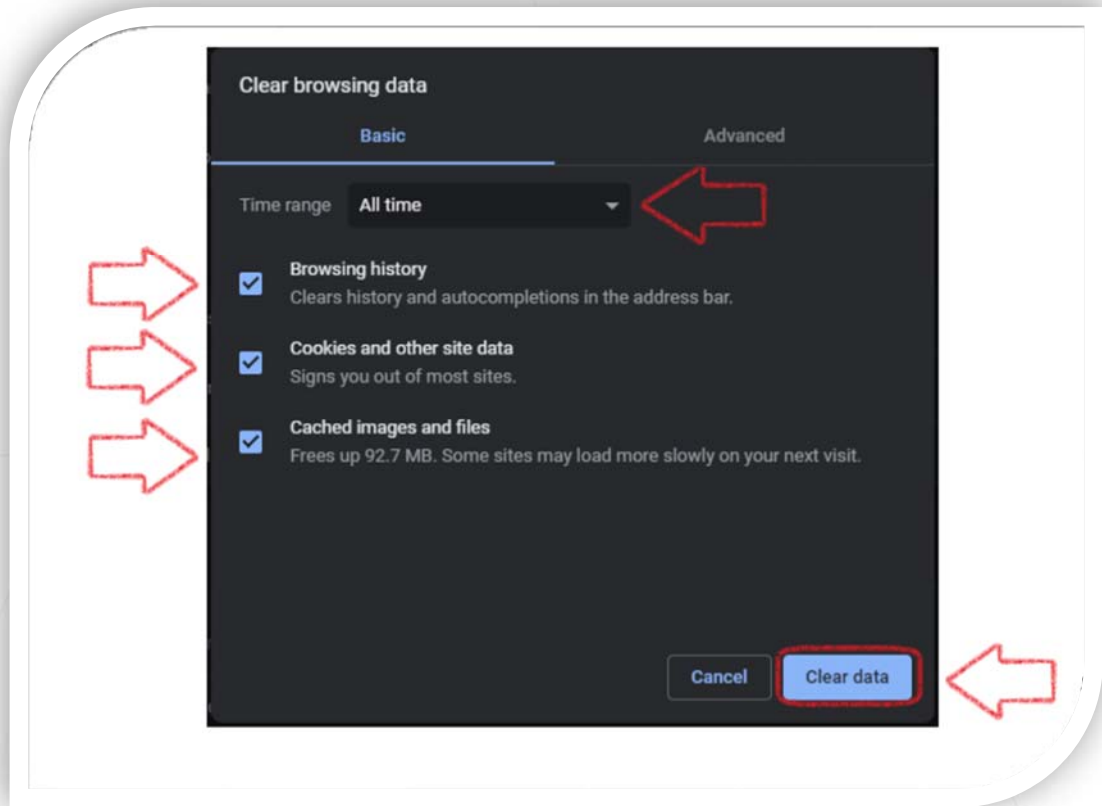

- Click-> Three horizontal dots in the upper right corner of the screen

- Click-> More tools
- Click-> Clear browsing data...
- Or Use shortcut Ctrl+Shift+Del

- Select-> All time from the time range drop down menu
- Check-> All three boxes if not checked
- Click-> Clear data

*Success! Your Cache has been cleared!*
