

How to Clear Cache in Firefox

1. Open Browser Settings

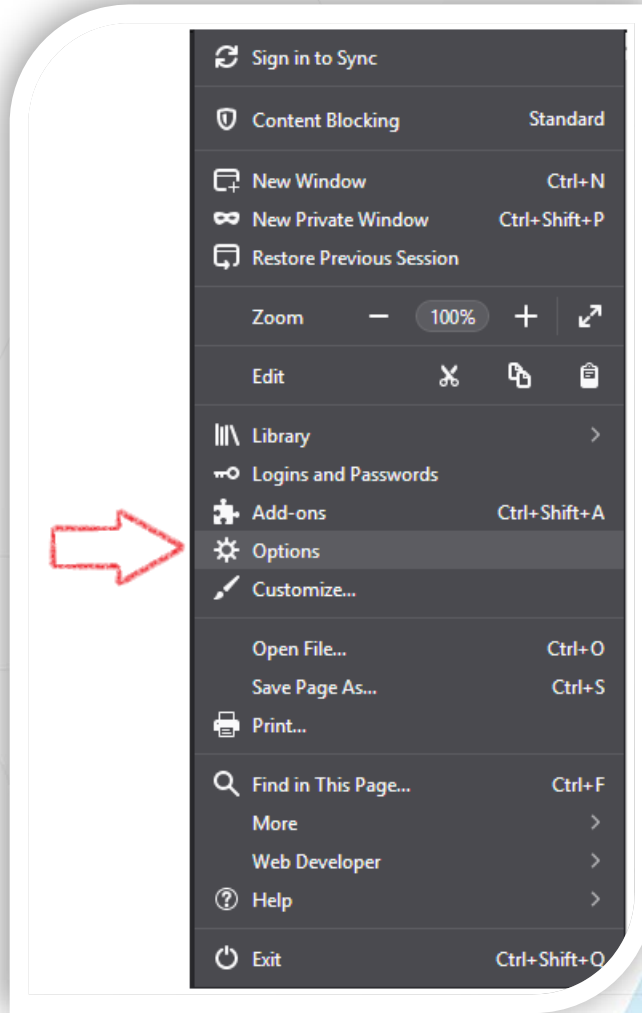

- Double Click-> Your Firefox internet browser icon

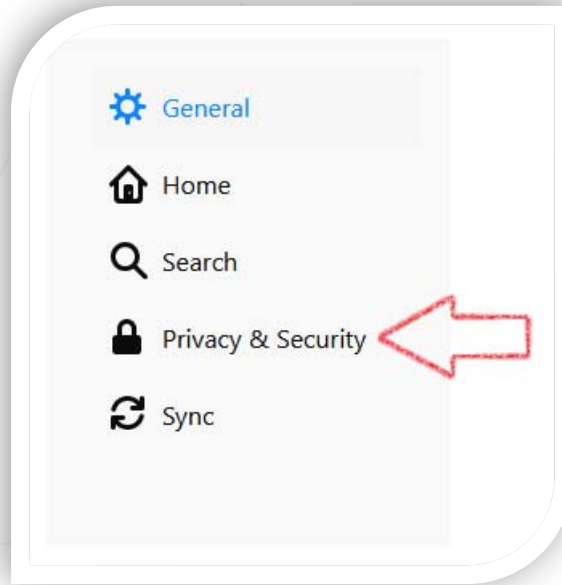

- Click-> Three vertical bars in the upper right corner of the screen

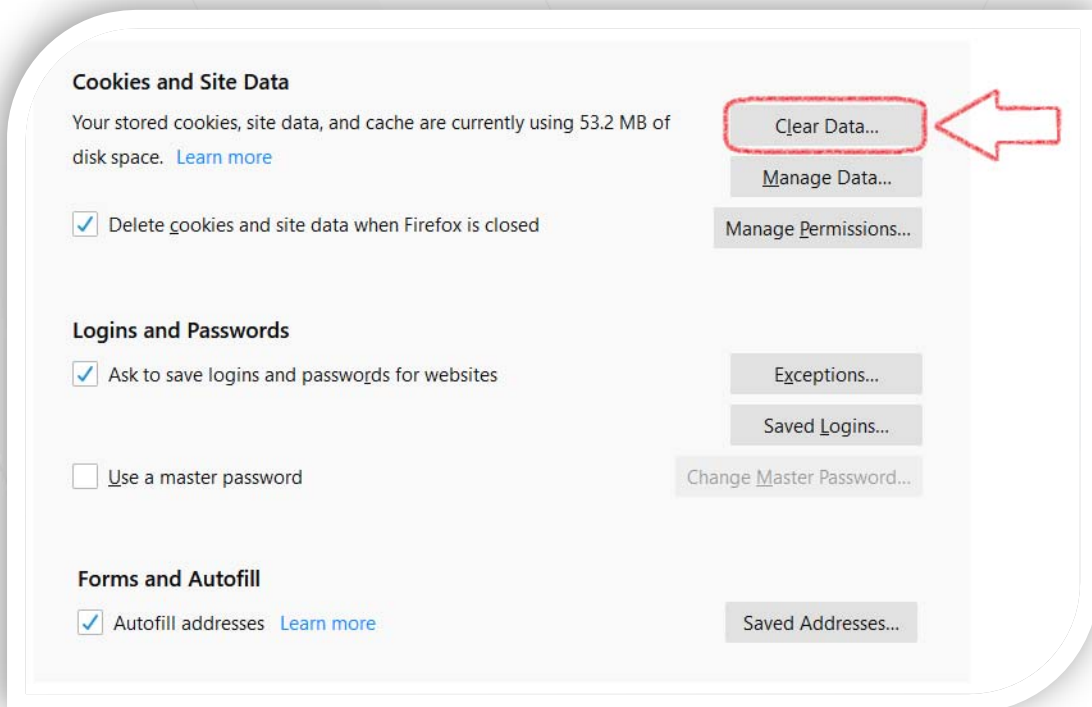

- Click-> Options

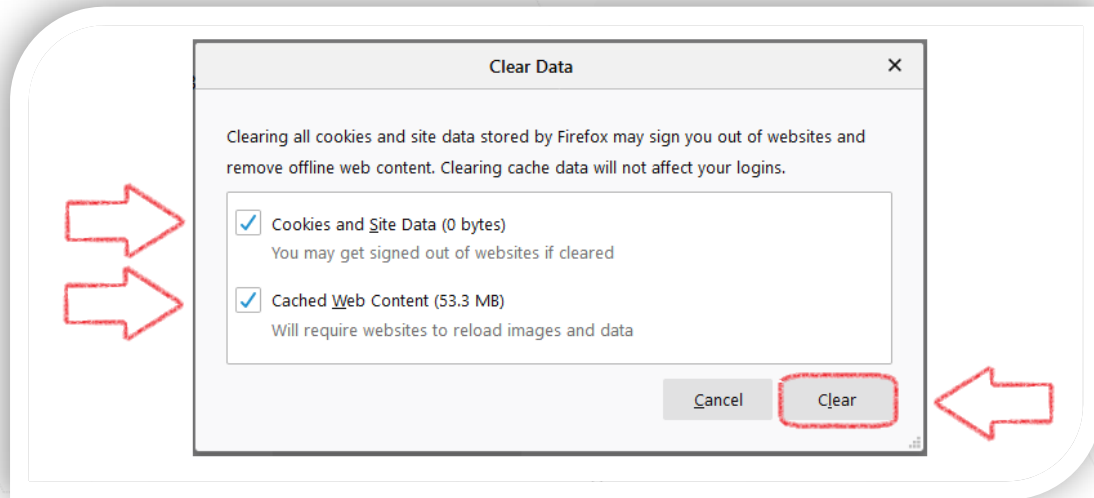

- Select-> Privacy & Security on the left side of your screen

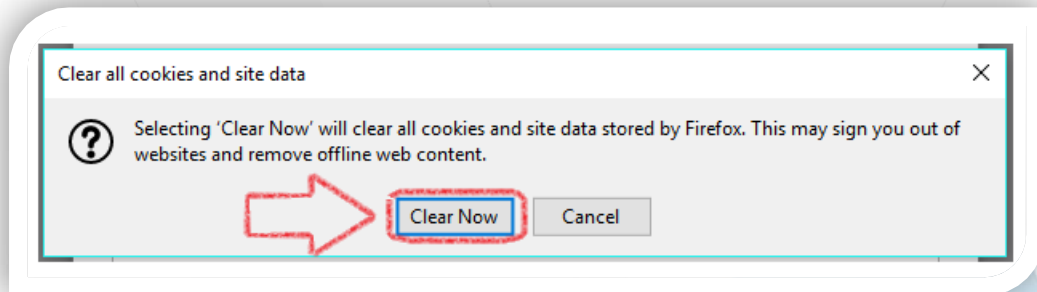

- Scroll-> Down to the Cookies and Site Data section
- Click-> Clear Data...

- Make sure both boxes are checked
- Click-> Clear

- You will then get a pop-up asking you to confirm
- Click-> Clear Now

Success! Your Cache has been cleared!
